

## Project Design Phase- II

### Solution Requirements( Functional and Non-Functional)

|               |                             |
|---------------|-----------------------------|
| Date          | 02 NOV 2025                 |
| Team ID       | NM2025TMID06137             |
| Project Name  | Laptop Request Catalog Item |
| Maximum marks | 4 Marks                     |

#### Functional Requirements:

| FR ID | Functional Requirement         | Description                                        | Acceptance Criteria                               |
|-------|--------------------------------|----------------------------------------------------|---------------------------------------------------|
| FR-01 | Catalog Form                   | User can submit laptop request form                | Form loads, fields visible, submission successful |
| FR-02 | Mandatory Field Validation     | System prevents submission if key fields are empty | Error shown for missing mandatory fields          |
| FR-03 | Manager Approval Workflow      | Request routed to manager for approval             | Manager sees approval task & can approve/reject   |
| FR-04 | IT Fulfillment Task Assignment | Approved requests auto-assigned to IT team         | IT queue receives fulfillment tasks               |
| FR-05 | Asset Assignment               | IT maps approved laptop to requestor in CMDB       | Asset record updated, linked to user              |
| FR-06 | Email Notifications            | Notify user at each stage                          | Email triggered on submit, approve, fulfill       |

|       |                         |                               |                                                  |
|-------|-------------------------|-------------------------------|--------------------------------------------------|
| FR-07 | Request Status Tracking | User can view progress        | Status appears: Submitted → Approved → Completed |
| FR-08 | SLA Monitoring          | Track request completion time | SLA timer visible, breach alert if delayed       |

## Non-Functional Requirements:

| FR ID | Functional Requirement         | Description                                        | Acceptance Criteria                               |
|-------|--------------------------------|----------------------------------------------------|---------------------------------------------------|
| FR-01 | Catalog Form                   | User can submit laptop request form                | Form loads, fields visible, submission successful |
| FR-02 | Mandatory Field Validation     | System prevents submission if key fields are empty | Error shown for missing mandatory fields          |
| FR-03 | Manager Approval Workflow      | Request routed to manager for approval             | Manager sees approval task & can approve/reject   |
| FR-04 | IT Fulfillment Task Assignment | Approved requests auto-assigned to IT team         | IT queue receives fulfillment tasks               |
| FR-05 | Asset Assignment               | IT maps approved laptop to requestor in CMDB       | Asset record updated, linked to user              |
| FR-06 | Email Notifications            | Notify user at each stage                          | Email triggered on submit, approve, fulfill       |
| FR-07 | Request Status Tracking        | User can view progress                             | Status appears: Submitted → Approved → Completed  |
| FR-08 | SLA Monitoring                 | Track request completion time                      | SLA timer visible, breach alert if delayed        |
